## What is AmpCoil?

### Change your Tune with AmpCoil

Your body is like a musical instrument. Every cell in your body needs to stay tuned to a specific frequency to function optimally. Metals, microbes, toxins, stress and many other factors can pull your cells out of tune. AmpCoil is a proprietary system that utilizes sound frequencies delivered via a **pulsed electromagnetic field (PEMF)** to help get your cells back into tune and resonate your body's natural frequencies in perfect harmony. When cells resonate at their optimal frequency, it creates balance leading to health and vitality.

### The AmpCoil Difference

AmpCoil is a wellness tool that works with the energetic body utilizing innovations from Nikola Tesla, mainstream physics, and quantum mechanics.

What makes AmpCoil unique from other devices on the market is the combination of multiple scientifically proven technologies that help to balance the body's systems at a sub-cellular level.

### Bioresonance

Human cells and organs emit electromagnetic sound frequencies as a result of their metabolic process. Cells can lose their healthy resonance in the presence of stress, toxicity, and trauma. AmpCoil's bioresonant sound therapy helps tune the cells' resonance back to its natural state and restore harmony in the energetic body, allowing for healthy homeostasis.
