## Energy Balancing System

The EB Pro® Energy Balancing System

Toxins are everywhere. They can come from the water we drink, the food we eat, depression, stress, personal care products, cookware, vaccinations, artificial sweeteners, heavy metals, GMO's, radiation, EMF's or even the air we breathe. With our lifestyles we are exposed to these toxins every single day. Our food supply has been denatured and our air and water have become dangerously polluted. However, there are toxins that we tend to expose ourselves to more commonly throughout our lives that disintegrate our bodies' optimal function. Toxins can cripple your brain and body if left unchecked.

### How the EB Pro™ Ion Therapy Device Works

The EB Pro® ion therapy device utilizes direct current to create an electromagnetic ionic field in which the patient places their feet in a water and salt mixture to increase energy and the positively charged cellular activity through the attached array.

- The EB Pro® Ion Therapy Systems are only direct current units to ensure no unwanted power transients or static sounds are passed to the body.
- Patients with pain, edema, gout, headaches, and swollen joints have often reported immediate relief.

- Other patients with arthritis, allergies, lymph edema, neuralgia and other symptoms have experienced relief and benefits with multiple treatments.
- For anyone who wants to optimize their well being and reduce the added stress on the body from environmental influences.
